

## SOCIAL SCIENCES AND HUMANITIES

### Course Expectations Regarding Operational Health and Safety (OHS)

#### *General Considerations for Program Planning: Health and Safety*

In family studies courses, teachers must take particular care to ensure that safety requirements are met and safety procedures followed when students are involved in practical activities. Students must be made aware of any health or safety hazards that might be connected with the activities in which they are engaged and must be coached in the proper use of safety equipment, such as fire extinguishers. Schools must provide pre-placement health and safety instruction for students in work experience and cooperative education programs. Employers are expected to provide placement-specific health and safety training as part of a student's learning plan.

#### *Grade 11*

#### Parenting (Grade 11, Open) HPC30

MINISTRY OF EDUCATION COURSE EXPECTATIONS	CHAPTER	SECTION & PAGE
	Biological and Chemical Hazards	<i>optional</i> Section I: pgs. 39-41

#### Living and Working With Children (Grade 11, College) HPW3C
